Marilyn,

I don't have an electronic copy of the RA Completion Report; however, to answer your question, the clean up goals were as you've listed below and the goals were met, i.e. verification samples confirmed that the soils left onsite did not exceed these goals.

Jean

Jean,

Do you have a convenient copy of the Remedial Action Completion Report? I am looking for the values that were left in soils. I have the remedial action goals which were clean up to 300 mg/kg for pcP, 20 ug/kg dioxin, and 6.0 mg/kg PAH's. Did clean up exceed these goals?
